INSTRUCTIONS FOR THE PREPARATION OF FINAL CONTRIBUTIONS FOR THE XIII INTERNATIONAL CONFERENCE ON STRUCTURAL DYNAMICS (EURODYN 2026)

First A. Author[1], Second B. Author[2], and Third C. Author[2]

[1]Affiliation of First A. Author
address
e-mail: name@e-mail.address

[2] Affiliation of Second B. (and Third C.) Author
address
e-mail: {name2,name3}@e-mail.address

Keywords: Keyword 1, Keyword 2, Keyword 3, Keyword 4, Keyword 5, Keyword 6.

Abstract. *This document provides information and instructions for preparing papers and extended abstracts to be included in the Proceedings of the XIII International Conference on Structural Dynamics (EURODYN 2026). Manuscripts can be written in LaTeX or Word. The first page is reserved for the title, the authors, affiliations, keywords and the abstract. The introduction must begin at the top of the second page. All the instructions as well as the source for the example files can be found on the conference website.*

1 INTRODUCTION

The proceedings of EURODYN 2026 will be published open access in EASD Procedia. Authors may submit an extended abstract or a full paper. Manuscripts must be written in English within a printing box of 16 cm x 24 cm, centered in the page. Extended abstracts are between two and four pages including references, figure and tables. Full papers must be at least six pages. There is no restriction on the maximum number of pages for full papers. Note, that only full papers will be indexed in the Scopus database with a link to the full text.

Papers and extended abstracts should be written using the LaTeX or Word templates that can be found on the conference website: `https://eurodyn2026.org`, see [1]. **The file has to be translated to Portable Document Format (PDF) before submission. Authors must upload the PDF file, correctly formatted, to the submission system**.

The deadline for uploading contributions is given on the conference website. The organizers do not commit themselves to include any paper received later than this deadline in the proceedings. **At least one of the authors must register and pay their registration fee before the early bird deadline for their submission to be included in the proceedings and the final program of the conference**.

2 TITLE, AUTHORS, AFFILIATION, KEYWORDS

The first page must contain the Title, Author(s), Affiliation(s), Keywords and the Abstract. The second page must begin with the Introduction. The first line of the title is located 3 cm from the top of the printing box.

2.1 Title

The title should be written centered, in 14pt, boldface Roman, all capital letters. It should be single spaced if the title is more than one line long.

2.2 Author

The author's name should include first name, middle initial and surname. It should be written centered, in 12pt boldface Roman, 12pt below the title.

2.3 Affiliation

Author's affiliation should be written centered, in 11pt Roman, 12pt below the list of authors. A 12pt space should separate two different affiliations.

2.4 Keywords

Please, provide up to six keywords. They should be written left aligned, in 12pt Roman, and the line must begin with the word **Keywords:** in boldface. A 30pt space should separate the keywords from the affiliations.

2.5 Abstract

Use 12pt Italic Roman for the abstract. The word **Abstract** must be set in boldface, not italicized, at the beginning of the first line. The abstract text should be justified and separated 12pt from the keywords, as shown in the first page of these instructions. The abstract should neither be too short nor exceed the first page.

3 HEADINGS

Do not use more than two levels of headings. The exact formatting of the section and subsection headings is presented next.

3.1 Main headings

The main headings should be written left aligned, in 12pt, boldface and all capital Roman letters. There should be a 12pt space before and 6pt after the main headings.

3.2 Secondary headings

Secondary headings should be written left aligned, 12 pt, boldface Roman, with an initial capital for first word only. There should be a 12pt space before and 6pt after the secondary headings.

4 EDITORIAL HEADING

The first page will include the editorial heading, as shown in the first page of these instructions. In addition, successive pages will include the name of the authors. The editorial heading must be included in the paper by the authors.

5 TEXT

The normal text should be written single-spaced, justified, using 12pt (Times New) Roman in one column. The first line of each paragraph must be indented 5mm. There is no inter-paragraph spacing.

6 PAGE NUMBERS

The final proceedings will have their own consecutive page numbers, and as a result the authors should **not** include page numbers in their papers.

7 FIGURES

All figures should be numbered consecutively and captioned. The caption title should be written centered, in 10pt Roman, with upper and lower case letters.

A 6pt space should separate the figure from the caption, and a 12pt space should separate the upper part of the figure and the bottom of the caption from the surrounding text.

Figures should be included within the text rather than added at the end of the paper.

8 EQUATIONS

A displayed equation is numbered, using Arabic numbers in parentheses. It should be centered, leaving a 6pt space above and below to separate it from the surrounding text.

The following example is a single line equation:

$$Ax = b \tag{1}$$

The next example is a multi-line equation:

$$\begin{aligned} Ax &= b \\ Bx &= c \end{aligned} \tag{2}$$

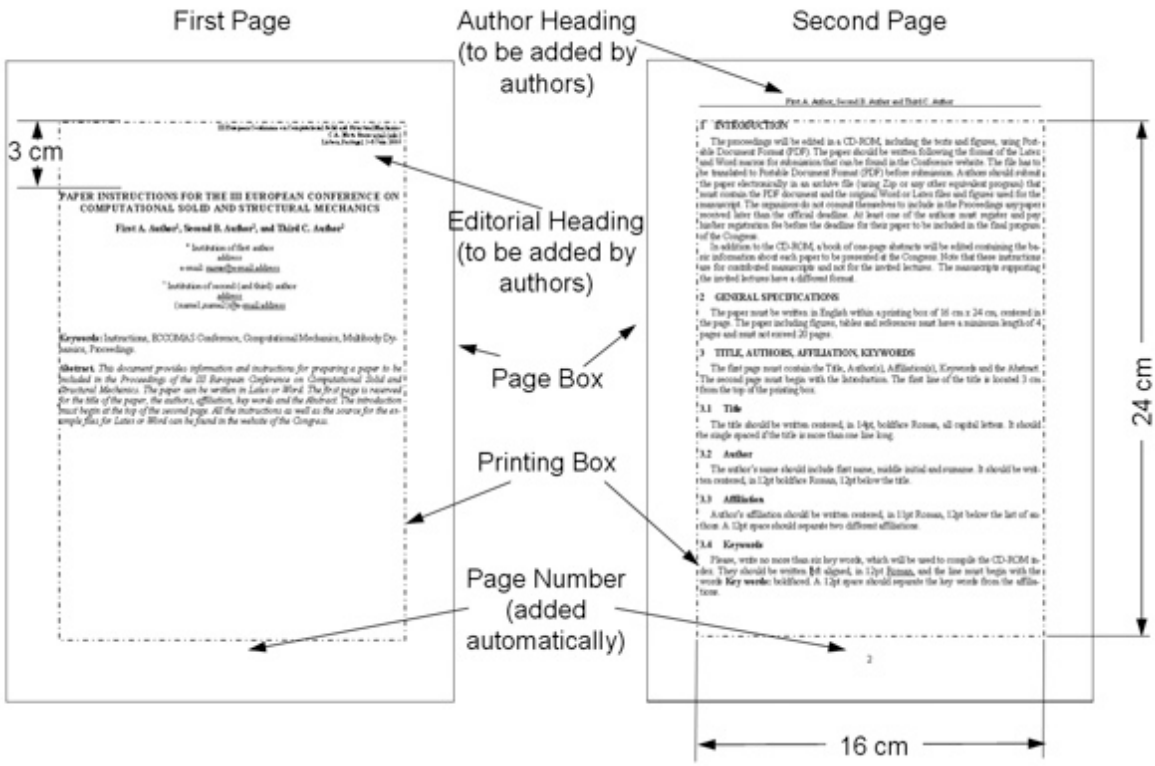

Figure 1: Page layout.

9 TABLES

All tables should be numbered consecutively and captioned, the caption should be 10pt Roman, upper and lower case letters. For horizontal lines use the `toprule`, `midrule`, and `bottomrule` commands provided by the *booktabs* packge. Do **not** use any vertical lines.

Title 1	Title 2	Title 3
C21	C22	C23
C31	C32	C33
C41	C42	C43
C51	C52	C53

Table 1: Example of the construction of one table.

A 6pt space should separate the table from the caption, and a 12pt space should separate the table from the surrounding text.

10 FORMAT OF REFERENCES

References should be quoted in the text by numbers [2–4] and grouped together at the end of the paper in numerical order as shown in these instructions. Three or more consecutive references may be grouped together in the text. The LaTeX template is set up to use *biblatex* and includes an example bibliography. The section heading of the references should be unnumbered.

11 CONCLUSIONS

- Papers must be submitted electronically.
- Papers must be written following the format of the LaTex or Word templates for submission that can be found at the conference website.
- Papers must be translated to Portable Document Format (PDF) before submission through the submission system.
- The deadline for the submission of papers announced on the website must be respected.
- The organizers do not commit themselves to include any paper received after the above-mentioned deadline in the proceedings.
- At least one of the authors must register and pay their registration fee before the early bird deadline for their paper to be included in the final program of the conference and the proceedings.
